

CELL PHONE + ELECTRONICS POLICY

Part of the uniqueness of camp is creating a close-knit community without the disruptions of everyday life. Therefore, we do not allow campers to have cellular phones.

Our policy is designed to:

- Encourage campers to spend more time off their beds and outdoors
- Promote socialization between campers
- Remove the divide between the “haves” and “have-nots”
- Reduce the stress associated with the damage to electronics
- Give campers a much-needed break from the world of technology
- Allow campers to fully embrace the connections they make with other campers as they unplug from their electronics

If your camper is traveling by bus or plane and needs their cellphone for travel, we are happy to store their cellphones during the session and return it to them charged and ready for travel on closing day.

Personal music players are permitted. GameBoys, Nintendo DS and other personal gaming systems are permitted as long as they are not capable of connection to the internet, but not recommended. All other electronics – cell phones (even without the SIM card), video devices, computers, etc. – are strictly prohibited. We are confident that your child’s overall camp experience will be much enhanced by the decision to take a few weeks of relief from these miracles of modern technology!
