SUMMER 2021-SPECIFIC

In addition to constant disinfection of buildings, materials, etc., we will provide extra hand washing stations, hand sanitizer and disposable masks to our entire community. You can find more information in our COVID-19 addendum which will be available closer to the start of the summer.

- 3-5 reusable masks (we will wash frequently and will provide disposable masks to all)
- Hand sanitizer that can easily attach to your camper's water bottle (we will have refill sanitizer when it runs out)
- A backup water bottle (in addition to the two we typically recommend) to ensure your camper always has one when we are sanitizing our camp community's water bottles.
