The Companion App

[Companion](#) is an application that allows you to upload forms, see photos of your camper, send emails and much more. If you haven't already, you can [download the Companion app here.](#)

We'll be sharing photos all summer long, and Companion's facial recognition technology searches for campers and tags them for you to view in the app.

To get started, follow these steps:

1. Download the [Companion app](#).
2. Use your [CampInTouch Account](#) (where you registered your camper) email address and password to log in.
3. Complete forms online and upload completed paperwork right in the app.
4. Upload a training photo of your child, which enables the app to send you photos of your camper over the summer.
5. Ensure you have push notification enabled within your phone settings so you can receive important updates from camp all year long!
